

Photo #6 – Extension of the Lithium-Ion Battery Pack Connections

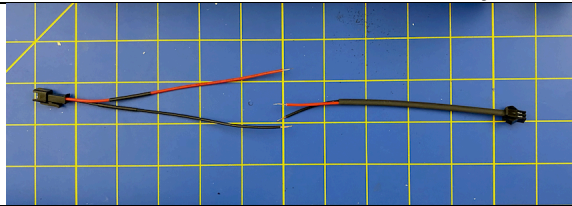

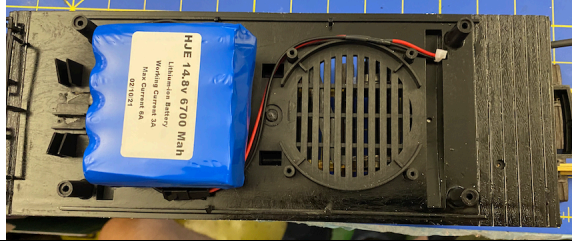

Photo #7 – Secure the Wire Assembly with a Cable Tie

10. Place the Lithium-Ion battery pack in the tender undercarriage, and reassemble the tender body and the tender undercarriage. Set the assembly aside in a safe location (at this point it might be worthwhile to charge up the Lithium-Ion battery pack while you work on the remainder of the “Big Hauler” conversion).

Photo #8 – Reassembled Tender

11. Turn over the Anniversary 4-6-0 chassis and remove the three screws that hold the bottom plate to the upper chassis (refer to photo #9).
